REASONS FOR ALLOWANCE

1. Claims 1-29 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 1, 20, 23 and 24 are allowable over the prior art for at least the reason that the prior art fails to teach or reasonably suggest, "wherein when the condenser lens system is switched out of the illuminating light beam no condenser lens system is present in the illuminating light beam; and a focusing lens positioned between said field diaphragm and said aperture diaphragm, said focusing lens configured to be displaceable along the optical axis" as set forth in the claimed combination. Claims 2-19 and 26 are allowable based upon their dependence on claim 1. Claims 21, 22 and 27 are allowable based upon their dependence on claim 20. Claim 28 is allowable based upon its dependence on claim 23. Claims 25 and 29 are allowable based upon their dependence on claim 24.

The prior art of record teaches a transmitted light illumination device comprising a light source, a collector lens, a field diaphragm; an aperture diaphragm, only one condenser lens system configured to be switchable into and out of the illuminating light beam. However, the prior art of record does not teach that when the condenser lens system is switched out of the illuminating light beam no condenser lens system is present in the illuminating light beam; and a focusing lens positioned between said field diaphragm and said aperture diaphragm, said focusing lens configured to be displaceable along the optical axis and there is no motivation or teaching to modify this difference as derived.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
